Special attention is drawn to the safety notices placed in the hall for the correct movement and setting up of chairs and tables which must be strictly adhered to.

As a rough guide, 75db is equivalent to a fortissimo singer standing 3 feet away. 105db is equivalent to a small, amplified, band playing. (A loud rock concert would be around 115db). Detailed instructions for all sound and vision equipment will be given on request. Hirers should not attempt to operate the equipment without the instructions.

In accordance with the Green Travel Plan the Hirer's attention is drawn to the limited car-parking available and is asked to encourage the use of the busses, coaches, and car-sharing, walking and cycling. Hirers are asked to ensure that their guests do not park in the local roads close to the village hall. A separate information leaflet contains a map and information on bus, cycling and walking routes.
